

The first ICE HOT NORDIC DANCE PLATFORM was held in Stockholm, and it instantly became a success. It featured 22 stage performances in the official program and 13 presentations from artists and companies in the program slot called More, More, More. In addition to the artistic program, the platform offered two panel discussions, two exhibitions, parties, networking and meetings.

The platform attracted 237 registered participants from 34 countries, as well as 199 artists, technicians and managers. The performances were shown at six different venues, and the audience numbers reached 3 610.
